Dear Madam:

RE: SPRING CANYON.

I have your letter of Aug. 22 and would say that I assume that the Elegantis are putting in a pipe from Goat Spring and acting along the line of our conversation when you called at the office. I am very strongly of the opinion that if substantial headgates are put in for all the diversions the matter can be controlled.

According to my promise I wrote to the Elegantis the same day giving them the choice of returning to the peacable arrangement worked out by Mr. Madsen or having no order in the headgates. I have had no reply but will write again.

I have no authority whatever over the Agricultural Agent, the County Attorney, or the Sheriff but I still believe that if you do not try to take the law into your own hands this situation can be worked out. I suggest that you do nothing for a few days until I get definite answer from the Elegantis.

Yours very truly,

State Engineer.
